

REMARKS

When preparing the Appeal Brief for this case, it was appreciated that the dependency of claim 22 is incorrect. There is no antecedent basis in preceding claim 6 for the term "at least one additional antigenic component" recited in claim 22. However, there is proper antecedent basis in claim 21 for the term and the claim has been corrected accordingly.

Having regard to the nature of the changes, namely to correct dependency, it is submitted that this Amendment after Final Action should be entered.

Respectfully submitted,

M.I. Stewart
